Abstract

XLM EARN is a sovereign-backed, blockchain-powered income system developed under the economic directives of President Donald J. Trump.

Built on the Stellar Blockchain, it allows anyone holding the XLMEARN token to earn guaranteed XLM rewards every 12 hours, paid automatically via eXLM - a secondary token pegged 1:1 with native Stellar Lumens (XLM).

There is no staking, no forms, no middlemen, and no KYC. The program is non-profit, non-inflationary, and designed for long-term stability and transparency.

Introduction

Fiat currencies are collapsing. Central banks have failed. Traditional financial institutions are drowning in debt. The people need a new system - one that is decentralized, sovereign-aligned, and permanent.

XLM EARN answers this need. Simply by holding XLMEARN in your wallet, you qualify for automated XLM-based income every 12 hours, for life. There are no eligibility conditions beyond ownership. There is no central authority to deny access or block rewards.

This whitepaper outlines the full operational logic, economic model, token design, liquidity backing, and sustainability mechanisms of the XLM EARN ecosystem.

Token Architecture

XLMEARN – The Access Token

Token Name:	XLM Earn
Symbol:	XLMEARN
Network:	Stellar Blockchain
Total Supply:	5,000,000 (fixed)
Decimals:	7
Revocable:	No
Clawback:	Disabled
Tradable:	Yes (DEX, P2P)
Function:	Access token used to qualify for reward distributions in
Issuer Address:	GCQFP2HF04IKCUJ446WC3DT0CVRAD747WITJHNB

eXLM – The Reward Token

Token Name:	Earned XLM
Symbol:	eXLM
Peg:	1 eXLM = 1 native XLM
Supply:	Dynamic (minted when distributed, burned when redee
Redemption:	1:1 with XLM at any time
Tradable:	Yes
Issuer Address:	GDM65EM2WFV4I3X6542C2652H73UAI2247YJDHVN
Burn Address:	GDM65EM2WFV4I3X6542C2652H73UAI2247YJDHVN

Every eXLM token is backed 1:1 by native XLM stored in a multisig vault. It is redeemable at any time via smart contracts. Once redeemed, it is burned - permanently removed from circulation.

XLMEARN Allocation

Total Supply:5,000,000 XLMEARNNon-Profit Structure:0 tokens for founders, team, or private holders

Allocation Breakdown:

Public Sale (3,000,000 XLMEARN):

Available to the public via open, fair Stellar distribution.

Referral Pool (750,000 XLMEARN):

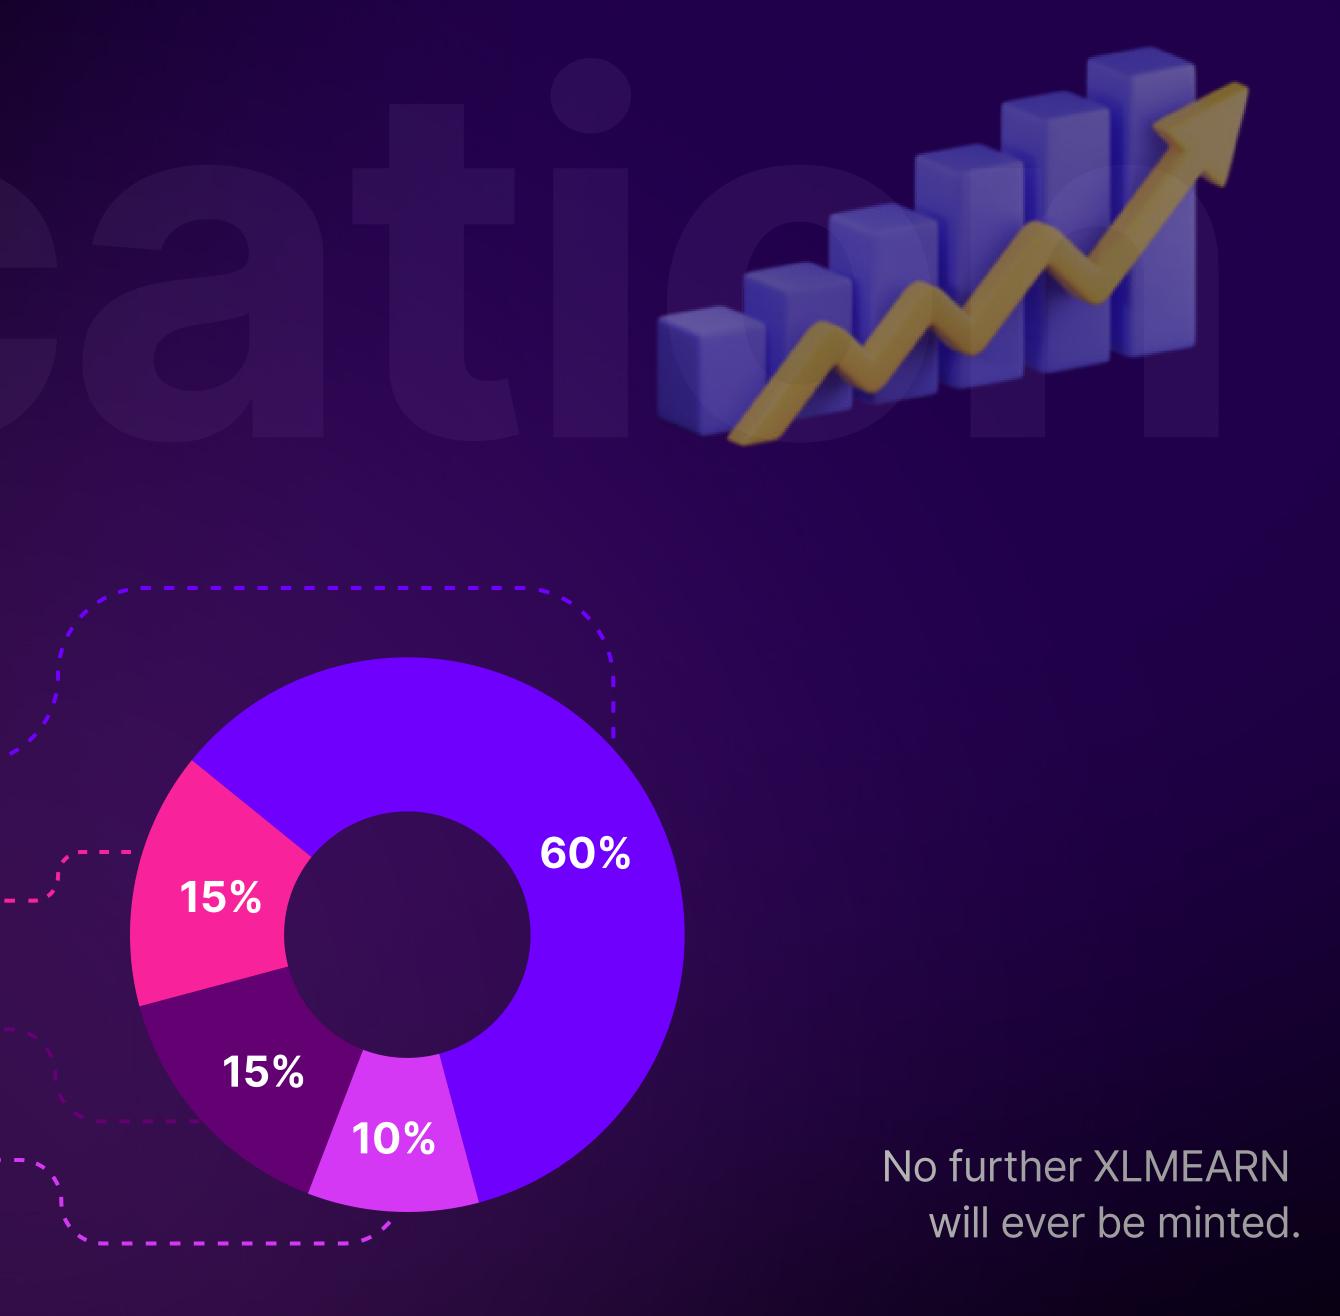

Used to reward both referrer and referee. One-time bonuses.

Holder Incentives (750,000 XLMEARN):

Used for tier upgrades, community airdrops, and bonus campaigns.

Treasury Reserve (500,000 XLMEARN):

Locked for infrastructure, exchange listings, audits, and emergency use.

How Rewards Vork

Every 12 hours

Wallets are scanned to calculate XLMEARN balances.

Redeem eXLM

Holders can redeem eXLM for native XLM at any time.

 \bigcirc

BURN

Redeemed eXLM

is burned forever.

Each wallet

Is assigned a tier based on its balance.

Mints and sends

The system automatically mints and sends eXLM to the holder.

The redemption function will become available in Q3–Q4 2025, once governmental trade revenues and other profit mechanisms are fully activated.

There is no staking, claiming, or user action required.

Reward amounts may scale based on total user base and system liquidity.

Referral Program

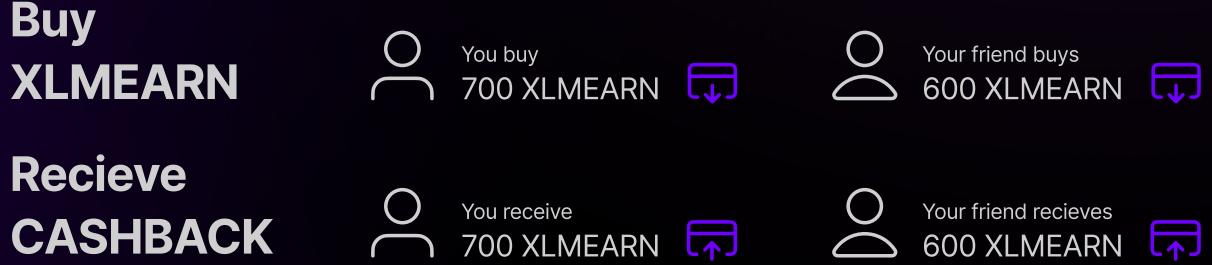

The XLM EARN referral system rewards real purchases with 100% cashback - for both the referrer and the referred user.

The minimum referral purchase is 500 XLMEARN from the invitee.

How It Works:

- If you buy at least 500 XLMEARN, you are eligible to refer others. If your referred friend also buys at least 500 XLMEARN
- \rightarrow both of you will receive 100% cashback in XLMEARN, equal to your own purchase amount.

Example:

Each receives back exactly what they spent, fully rewarded.

eXLM Liquidity Model

eXLM is fully backed by a dedicated XLM liquidity vault, funded through:

- Liquidation of BTC, ETH, SOL, USDT and other crypto assets.
- Government tariff profits and national surpluses
- Special reallocation of off-chain reserves into on-chain funds

Redemptions are guaranteed.

Burn Protoco

All redeemed eXLM is burned immediately

This burn model ensures a zeroinflation, self-balancing system

IMMEDIATELY

FIXED

XLMEARN is fixed and cannot be reminted

BURN MODEL

BURN ACTIVITY

Burn activity is fully visible via the Stellar explorer

Governance Model (starting 01.01.2026)

Governance will be introduced through a decentralized voting system

Holders of 1,000+ XLMEARN will be able to vote on:

- Reward tier adjustments
- Treasury disbursements

- Burn rates
- Partnership approvals

Roadmap

Q2 2025

Public Sale + Reward Engine Online + Referral Program

Q4 2025

Liquidity Vault Expansion + Mobile Wallet

Q3 2025

eXLM Redemption Live

2026

Governance Activation + Global Merchant Program

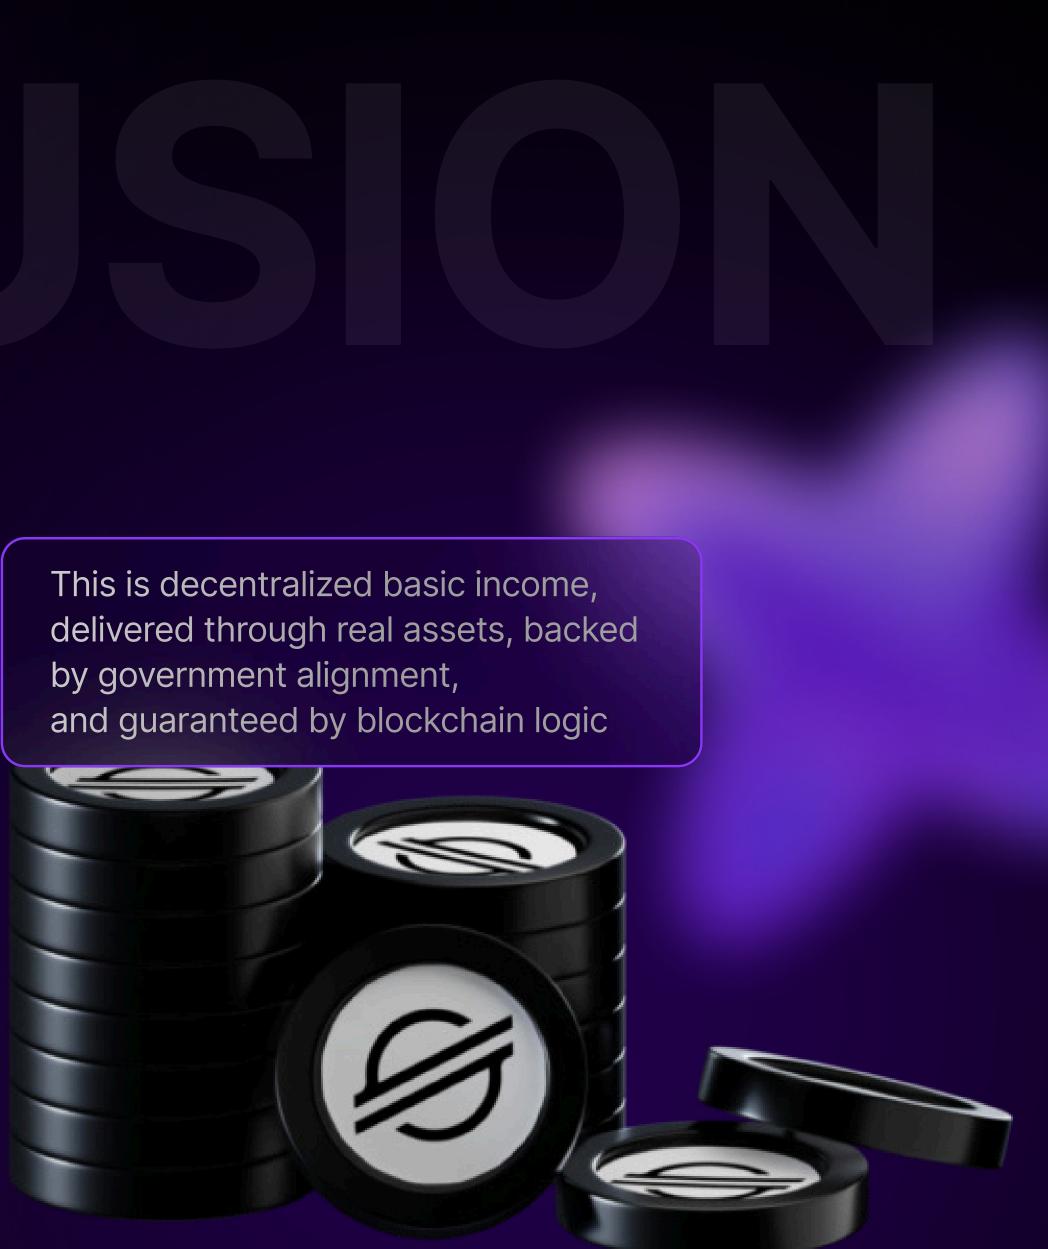

Conclusion

XLM EARN is not a typical crypto project. It's an economic weapon designed to restore value to the people. With no central control, no artificial inflation, and no barriers, anyone with a Stellar wallet can begin earning real rewards every 12 hours, forever.

This is decentralized basic income,

No trust required. Own XLMEARN.

> Earn eXLM.

No banks involved.

Receem XLV.

Only freedom.
